# AVULA TARUN TEJ

WEB DEVELOPER | PYTHON | AI/ML ENTHUSIAST

avulataruntej123@gmail.com | Tadepalligudem, Andhra Pradesh, India
LinkedIn | Open to remote coding projects

Web developer and AI/ML enthusiast with around two years of hands-on website-building experience. Learning web development since 2022 and using Python since 2023. Projects span interactive learning tools and C++ systems, alongside experience evaluating and grading AI responses across multiple projects.

## TECHNICAL SKILLS

**Web development:** JavaScript, TypeScript, HTML, CSS and React; responsive interfaces and interactive browser applications.

**Python:** Using Python since 2023; deepening practical knowledge of NumPy, pandas, PyTorch and scikit-learn.

**C / C++ and tools:** Occasional C/C++ use, including C++20 projects; Git, GitHub, automated testing and GitHub Actions.

## SELECTED CODING PROJECTS

**Axiom SAT Math** | HTML, CSS, JavaScript | Live site
SAT-style maths practice with reproducible question generation, timed sessions, worked solutions and browser-saved progress. Includes automated checks for question generation and learning history.

**Forge Learning Academy** | React, TypeScript, Vite
Interactive learning website with a 3D learning map, guided Python and Git exercises, project editors and downloadable work. Progress is stored in the browser.

**AxiomMath** | C++20
Exact rational arithmetic and expression parsing with checked overflow, mathematical design notes and differential verification against Python's fractions.Fraction.

**PocketKV** | C++20
Persistent key-value store with an append-only log, checksums, file locking and recovery tests. Includes a reproducible benchmark exploring overwrite history and warm reopening costs.

## EXPERIENCE

**AI Response Evaluation** | Outlier and Mercor | May 2026 - present
Evaluate and grade AI-generated responses across projects for correctness, reasoning, relevance, clarity and instruction-following. Apply project rubrics, compare outputs and provide structured written feedback.

**SAT Mathematics Content** | YouTube / Independent
Created SAT maths videos with step-by-step explanations and worked examples to make mathematical concepts and problem-solving methods easier to understand.

## EDUCATION & TRAINING

**Pre-University Course (PUC)** | RGUKT Srikakulam, Andhra Pradesh
Completed July 2023. Four-semester PUC component; CGPA: 8.27/10.

**9th Summer School on Artificial Intelligence** | IIIT Hyderabad
July 2025. Participant in a week-long summer school; studied computer vision and machine learning concepts.
